What is iBUILD?

The **iBUILD mobile application for customers** is a citizen-to-citizen (C2C) housing market disruption tool that **empowers people to build**, reversing their housing plight **through small-scale construction** based on individual need

What Problems does iBUILD Solve?

Current Small Scale Building Problems

Difficult to secure financing from lenders

Can't verify quality of contractors

Process is hard to manage; limited project management tools

Payments are difficult and no completion guarantee if paid ahead

Small Scale building with iBUILD

DIGITALLY DISBURSED LOANS

Apply for loans and receive direct disbursement to digital savings wallet

CONTRACTOR MARKETPLACE

Receive quotes and select contractors and suppliers with past reviews and work history

PROJECT MANAGEMENT TOOLS
